SmartModuleS
USB Hub Module

ARTICLE NUMBER: 163421

The module has six USB 2.0 downstream ports that can be monitored and remote controlled. Each port is individually switchable for an efficient energy and device management. Connected USB devices are automatically detected.

// Dimensions: 325 mm x 35,56 mm x 129 mm (LWH, 7 HP)

// Switching of connected devices with up to 2,5 A per USB port

// Resetting or disconnecting of faulty connections or overloaded ports

// Energy saving by switching off USB devices that are not required

// Displaying of switched on ports via LEDs

// Configuration of the automatic activation of ports when switching on

// Digital parallel input for control

// Usable as a charging unit with total output current up to 6 A (900 mA per port)
